OBJECTIVE

Motivated third-year student pursuing a Bachelor of Engineering in Artificial Intelligence and Data Science, with a strong foundation in analytical thinking and problem-solving. Seeking opportunities to gain practical experience and contribute to meaningful, data-driven solutions in a dynamic environment.

EDUCATION

BMS College Of Engineering

Bachelor of Engineering in Artificial Intelligence and Data Science

Bengaluru

Aug 2023 – Mar 2027

- CGPA: 8.8/10.0 (till 5th SEM)

PROJECTS

Personal Portfolio | *Next.js, React, TypeScript, Tailwind CSS, Framer Motion*

- Designed and developed a responsive personal portfolio website with a cinematic nebula-themed UI using Next.js and React.
- Styled with Tailwind CSS featuring glassmorphism effects, dynamic hover interactions, and micro-animations for a premium feel.
- Implemented multi-page routing with Next.js App Router and optimized image delivery with next/image.

Adventure Consent Form Summarizer | *Python, PyMuPDF, SpaCy, PyTorch, SentenceTransformers, NLP*

- Built an intelligent tool to extract and semantically summarize adventure consent forms, highlighting key sections like Risks, Obligations, Liability, Duration, and Consent for quick review.
- Integrated NLP techniques and transformer-based models to enhance contextual understanding and improve the accuracy of extracted insights from complex documents.
- Built Streamlit-based interfaces for deploying and visualizing models in AI assistant and PDF summarization projects.

Deep Learning-Based OMR Scoring | *Python, OpenCV, TensorFlow/Keras, NumPy, Pandas, CNN, Computer Vision*

- Designed and trained a Convolutional Neural Network (CNN) on synthetically generated bubble datasets to classify filled vs. unfilled responses.
- Integrated hybrid scoring logic combining CNN confidence + pixel intensity analysis for improved robustness.
- Developed an end-to-end OMR pipeline including image preprocessing (thresholding, contour detection, perspective transformation) to accurately detect and evaluate answer sheets under varying conditions..

CERTIFICATIONS

Generative AI – Google	2025
Machine Learning – University of Michigan	2025
IBM Cloud Fundamentals – IBM	2025
Nutanix Hybrid Cloud Fundamentals – Nutanix	2026

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL (Postgres), JavaScript, HTML/CSS, R
Frameworks: React, Node.js, Flask, Streamlit
Developer Tools: Git, Docker, VS Code, Visual Studio, PyCharm, Jupyter,
Libraries: Pandas, NumPy, Matplotlib, Keras, Nlp , Scikit

ADDITIONAL

- **Languages:** English, Malayalam, Hindi
- **Interests:** Music, Travelling, Movies, Hackathons, Sports
